

5N PLUS WILL RELEASE ITS SECOND QUARTER RESULTS

MONTREAL, Québec, July 26, 2017 - 5N Plus Inc. (TSX:VNP), the leading producer of specialty metal and chemical products, will release its second quarter results after market hours on August 1, 2017.

5N Plus will host a conference call as well as a webcast on August 2, 2017 at 8:00 a.m. Eastern Daylight Time with financial analysts and institutional investors.

To join the conference toll free, please dial 1-888-231-8191, or 647-427-7450 in Toronto, or 514-807-9895 in Montreal. The conference access code is 61539101.

Please note that this conference call will be accompanied by an online presentation available to download on our website approximately one hour prior to the call and that a playback will be available two hours after the event at 514-807-9274 or 1-855-859-2056, until August 9, 2017. To access via webcast please visit the "Investors Centre" section of www.5nplus.com. Pre-registration will be available.

To provide more visibility with how 5N21 strategic plan's execution is progressing, the Company has updated its website with a progress report under www.5nplus.com. This publication provides a view of the company's strategic plan and a progress measurement against each of the three pillars of the plan.

About 5N Plus Inc.

5N Plus is the leading producer of specialty metal and chemical products. Fully integrated with closed-loop recycling facilities, the Company is headquartered in Montreal, Québec, Canada and operates manufacturing facilities and sales offices in several locations in Europe, the Americas and Asia. 5N Plus deploys a range of proprietary and proven technologies to produce products which are used in a number of advanced pharmaceutical, electronic and industrial applications. Typical products include purified metals such as bismuth, gallium, germanium, indium, selenium and tellurium, inorganic chemicals based on such metals and compound semiconductor wafers. Many of these are critical precursors and key enablers in markets such as solar, light-emitting diodes and eco-friendly materials.
