5N Plus and Rio Tinto Alcan in Discussions Regarding Development of New Primary Gallium Source

NEWS RELEASE
Distribution date: October 14, 2011

Montreal, Quebec, October 14, 2011 – 5N Plus Inc. (TSX: VNP), a leading producer of specialty metal and chemical products, announces that it has signed a memorandum of understanding (“MOU”) with Rio Tinto Alcan, a global leader in the aluminum industry. This MOU will allow 5N Plus and Rio Tinto to pursue discussions regarding a project to recover gallium from an alumina production stream at Rio Tinto Alcan's Vaudreuil alumina facility, Quebec.

Jacques L’Écuyer, President and Chief Executive Officer of 5N Plus said: "We are very pleased with the scope of our discussions with Rio Tinto, and have good reason to believe that we will shortly be in a position to develop a new primary source of gallium. In light of anticipated strong growth in the demand for gallium, this new source will enable us to both strengthen our supply chain and forge a strategic partnership with Rio Tinto."

About 5N Plus Inc.
5N Plus is the leading producer of specialty metal and chemical products. Fully integrated with closed-loop recycling facilities, the company is headquartered in Montreal, Québec, Canada and operates manufacturing facilities and sales offices in several locations in Europe, North America and Asia. 5N Plus deploys a range of proprietary and proven technologies to produce products which are used in a number of advanced pharmaceutical, electronic and industrial applications.
